Deposits from QuickBooks as Opportunity in Salesforce

Opportunities falling under the wrong account

Issue

The Deposits from QuickBooks are synced as Donations(Opportunity) into Salesforce. The Donations are attached under the wrong account due to the mapping issue.

ı	Navigate here to open mapping for Upsert opportunity.

Step 1:

- Navigate to upsert opportunity mapping.
- Under the opportunity, mapping finds the AccounID field as shown in the picture below.

Present Mapping: LOG(TLOOKUP("select Id from Account where AVSFQB_Quickbooks_Id_c=""+LOG(VALUE("CustomerRef/ListID"))+"""))

Make the necessary changes in the mapping of AccountId.	
 Make the necessary changes in the mapping of Accountld. Below is the correct mapping. Further, save the changes. Changed Mapping: LOG(TLOOKUP("select Id from Account where AVSFQB_Quickbooks_Id_c=""+LOG(VALUE("EntityRef/ListID"))+"'"))

Also make sure that the Quickhooks!	D field mapping is appropriate in the u	insert Account	
Also, make sufe that the Quickbooks			
Also, make sure that the Quickbooksi	3 - 11 - 1	poort / toodurit.	
Also, make sure that the Quickbooksi		poort / looduiti.	
Also, make sure that the Quickbooksi		poort / tooodilit.	
Also, make sure that the Quickbooksi		poort 7 toodulii.	
Also, make sure that the Quickbooksi		poort 7 toodulit.	
Also, make sure that the Quickbooksi		poort 7 toodulit.	
Also, make sure that the Quickbooksi		poort 7 toodulit.	
Also, make sure that the Quickbooksi			
Also, make sure that the Quickbooksi		poort 7 tooodille.	
Also, make sure that the Quickbooksi		poort 7 tooodille.	
Also, make sure that the Quickbooksi		poort 7 tooodille.	
Also, make sure that the Quickbooksi		poort 7 tooodille.	

QuickboksID mapping: VALUE("EntityRef/ListID")
