Release 4.6.5

Effective Release Date: Jan 13th, 2020
Release Notes:

Enhancements

- Add XMLFormatter Support to FTP Connector
- Showing error logs although the updates are actually completing successfully.
- Shopify - Support for additional APIs
- Business Central Connector Issue
- Add Date Macro field in QuickBooks Online Report Query

Minor Fixes

- Salesforce Schema Issue in Mapping Page
- Can't use join in query
- FTP file data loss while sync
- PostGresDB can not load meta data
- DBSync is not fetching the records for sync, if custom field in QB is having space.
