

Release 4.9.15

Bug

[CW-1560](#) Quickbooks Online connector is disconnecting when a scheduler is triggered.

[CW-1557](#) Salesforce connector is disconnecting frequently

The Frequent disconnection of Connectors is fixed. Possibly due to profile.xml corruption. Preventive checks and reversion logic upon corruption of file has been added.

We continue to monitor it.

[CW-1556](#) Upgrade Log4j to 2.17.x - Security upgrade

The Security upgrade log4j to 2.17 version
