

iPaaS

DBSync iPaaS is built on a platform that consists of the following elements:

- [Projects](#)
- [Process](#)
- [WorkFlow](#)
- [Trigger](#)
- [Rules](#)
- [Scheduler](#)
- [Logs](#)

These elements are discussed in greater detail in their respective locations in the wiki. You can also click on the hyperlinks - provided above - to directly navigate to a specific section.
