

Setting Password in QuickBooks Web Connector

1. To open Web Connector, go to QuickBooks and click on "**Start\Programs\QuickBooks\Web Connector**".
2. Enter your Password in the Password tab for a particular application.
3. Click on the **Text box** for the application and enter your **Password**. Click **ENTER**. A confirmation message, "*Do you want to save this Password*" will display. Click **Yes** to save your password.
4. Your password is changed and you are now ready to run the sync.
