SalesforceQuickBooksOnlineBiDirectional / QuickBooksOnline	QuickBooks Online Rest Connector	Color Delece

Step 7: Keep logged in to your QuickBooks Online instance in the same window.

Note: Connect to the same instance of QuickBooks online which was connected previously.

Step 8: After clicking on QuickBooks Online or Edit button, click on "Would you like to re-connect?"

Step 9: Select the environment as required (normally it would be Production/Developer Instance). Then, click on "Connect to QuickBooks" button.
