Mapping Invoice Total amount From Quickbooks Receive Payments to Receivables in Salesforce

MAPPING INVOICE TOTAL AMOUNT FROM QUICKBOOKS RECEIVEPAYMENTS TO SALESFORCE RECIEVABLES

ISSUE :
When querying Recive Payments object from Quickbooks Desktop we don't get subtotal value, to map it to AVSFQB_*Total_Invoice_Amount*_c for Recievables in Salesforce.

PROCESS : QBPAYMENTS TO SF RECIEVABLES

SOLUTION : For 'AVSFQB_*Total_Invoice_Amount*_c' map the below mappings and save and close.

AVSFQB__Total_Invoice_Amount__c [currency, 0]

```
{
String x
=VALUE("AppliedToTxnRet/BalanceRemaining");
String y =
VALUE("AppliedToTxnRet/Amount");

if(x!=null  && y!=null && !x.isEmpty() &&  !y.isEmpty())
{

float B = Float.parseFloat(LOG(x));

float T = Float.parseFloat(LOG(y));

float P = ( T+ B );

return String.valueOf(P);

}

else
{ return "";
}

}
```

```
{
String x =VALUE("AppliedToTxnRet/BalanceRemaining");
String y =
VALUE("AppliedToTxnRet/Amount");
if(x!=null && y!=null && !x.isEmpty() && !y.isEmpty())
{
float B = Float.parseFloat(LOG❌);
float T = Float.parseFloat(LOG👍);

float P = ( T+ B );
return String.valueOf(P);
}
else
{
return "";
}

}
```
