

Avoid Syncing Future Invoice and is Pending Invoices

ISSUE :

Future Invoices and the pending invoices should not be synced from Quickbooks to Salesforce

SOLUTION :

Go to 'Invoice to Asset' process in DBSync and in the validate row add the below mappings and save

```
{
String isPend = VALUE("IsPending");
String dt = (java.time.LocalDate.now()).toString();
java.util.Date txnDate = new java.text.SimpleDateFormat("yyyy-MM-dd").parse(VALUE("TxnDate"));
java.util.Date decDate = new java.text.SimpleDateFormat("yyyy-MM-dd").parse(dt);
LOG(dt);
System.out.print(dt);
if(txnDate.after(decDate) && (isPend.equalsIgnoreCase("true") ))
{
return "false";
}
return "true";
}
```
