

# User Interface

DBSync Cloud Replication User Interface can be used to run the replication. Step by step process is shown in this section.

- DBSync Replication Console must be started. Step by step procedure to start the console is shown in the topic *Start DBSync Replication Console*.
- Select **Manage Profiles** in home page of Replication UI and select the required profile.

- Initiate the sync using the **Run** menu to select the required mode of Replication to execute.

- You can also schedule the sync using the **Scheduler** tab. Select the required Process from the **Command** dropdown and configure the frequency of the sync by selecting a desired duration from the **Runs** dropdown. The below screenshot illustrates configuring scheduler functionality.
